fascinating story of the growth of a new industry a legendary american business and a pioneering spirit

this study provides an appraisal of germany s air forces from the post world war i era through the early stages of world war ii the author demolishes several myths surrounding the luftwaffe including the belief that they had no ideas beyond the support of ground forces

crew resource management CRM training was first introduced in the late 1970s as a means to combating an increased number of accidents in which poor teamwork in the cockpit was a significant contributing factor since then CRM training has expanded beyond the cockpit for example to cabin crews maintenance crews health care teams nuclear power teams and offshore oil teams not only has CRM expanded across communities it has also drawn from a host of theories from multiple

disciplines and evolved through a number of generations furthermore a host of methodologies and tools have been developed that have allowed the community to better study and measure its effect on team performance and ultimately safety lacking however is a forum in which researchers and practitioners alike can turn to in order to understand where crm has come from and where it is going this volume part of the critical essays on human factors in aviation series proposes to do just that by providing a selection of readings which depicts the past present and future of crm research and training

this is a historical facts report and commentary on the development of the german air traffic control centre rhein control as formerly operated by the united states air force in europe usafe and the former german federal administration for air navigation services bfs assisted by the german air force gaf at birkenfeld nahe and frankfurt main in germany rhein control was and still is an upper airspace air traffic control atc centre formerly responsible for south germany only but now also covering all of former east germany berlin uir this report is written by a former air traffic controller and air traffic control expert who meanwhile actively spent 50 years in the atc profession worldwide and has had first served 25 years with the german federal administration for air navigation services bundesanstalt für flugsicherung in upper airspace area control operations atc planning and experimentation
