- Trait Leadership Theory** This theory suggests that certain innate traits—such as intelligence, confidence, and integrity—are associated with effective leadership. Northouse discusses how these traits form the foundation for leadership success but also highlights their limitations, emphasizing that traits alone do not guarantee effective leadership.
- Skills Approach** The skills approach shifts focus from innate traits to learned skills and competencies. It identifies three core skill areas:
 - Technical Skills:** Proficiency in specific tasks or processes
 - Human Skills:** Ability to work with people and foster teamwork
 - Conceptual Skills:** Capacity to see the big picture and strategic thinkingThis approach underscores the importance of developing these skills through education and experience.
- Behavioral Theories** Behavioral theories emphasize specific leadership behaviors rather than traits or skills. Northouse highlights two primary behavioral styles:
 - Task-Oriented Behavior:** Focused on goal achievement and task completion
 - Relationship-Oriented Behavior:** Focused on building relationships and supporting followersEffective leaders often balance these behaviors depending on the context.
- Situational and Contingency Theories** These theories propose that there is no single best leadership style. Instead, effective leadership depends on situational variables. Northouse discusses models such as:
 - Fiedler's Contingency Model:** Leadership effectiveness depends on the match between a leader's style and the situation
 - Hersey and Blanchard's Situational Leadership:** Leaders adapt their style based on followers' maturity and readiness
- Transformational and Transactional Leadership** Among the most popular theories, transformational leadership focuses on inspiring followers to achieve extraordinary outcomes
