the official unarmed martial arts taijutsu curriculum of ninpo us and affiliated schools if you are a student of one of our branches or interested in learning traditional martial arts this book is a must have

this book is the author's attempt to present what is probably the most important aspect of ninjutsu in print of course philosophy is very important to the ninja but since technique is a reflection of philosophy careful study of this book should shed some light on the ideas that were used and are still followed today by the shadow warrior this book is in many ways a companion work to the author's traditional ninja weapons however the present work presents many new ideas about ninjutsu which hopefully will help the reader gain a fuller understanding of this fascinating albeit often misunderstood martial art in this work the author has outlined a general overview of taijutsu while remaining as true as possible to the art's traditional form there are of course many special cases that have not been included in the book because of space considerations as always the author would like to extend his thanks to the many instructors and training partners that have made this book possible

in order to understand the application of the techniques within the kata it is useful to understand the feeling of the kata one of the problems in learning these secrets is that they are not revealed casually or quickly many of the teachers who are able to truly transmit these teachings are located in japan usually imparted within the name such as koku creating space the student should attempt to

capture the underlying concept without knowing genri application of entering and exiting each kamae the ability to create henka may be limited

in 1789 king chongjo ruler of the yi dynasty ordered general yi duk moo to compile an official textbook on all martial art forms then present in korea to preserve them for future generations the result the muye dobo tongji is the only surviving classical text on the korean arts of war based on the earliest known korean martial arts treatise the muye chebo written in 1599 the muye dobo tongji clearly shows the influence of the neighbouring japanese and chinese armies through hundreds of wars and invasions korean soldiers adapted battlefield skills and tactics from their enemies creating a unique system of their own organised into 24 distinct disciplines comprised of empty hand fighting weaponry and horsemanship this book is an accurate historical snapshot of the warrior arts of the hermit kingdom in the late 18th century the release of the comprehensive illustrated manual of martial arts of ancient korea marks the first time this volume is available in english carefully translated from the original text and illustrated with reproductions of ancient woodblock carvings this book provides fascinating insights into korea s martial arts legacy

chinese martial arts masters of the past wrote secret training manuals as well as training manuals available to the general public sometimes appearing themselves in the illustrations these manuals are an invaluable source of information about china s martial arts past and the photographs and drawing which many of them contain provide a glimpse back in time to how chinese martial arts was actually practiced by the masters of the past this book introduces the rich literary and pictoral legacy of chinese martial arts training manuals for the first time to the west
