architecture and design currently play a minor role in the design and construction of industrial building types especially waste to energy facilities through comparing the well established waste to energy industries in sweden with less established engagements in the northeast of the united states opportunities and lessons are revealed this book presents a refreshed design led approach to waste to energy wte plants reflecting work done at harvard university graduate school of design gsd architecture and design currently play a minor role in the design and construction of industrial building types especially waste to energy

facilities architects have a role to play in integrating waste to energy plants physically and programmatically within their urban or suburban contexts as well as potentially lessening the generally negative perception of energy recovery plants

wicked problems are complex ill structured human problem situations this book will help you design an inquiry and intervention in such messy wicked situations it does so by guiding you through the steps and stages of a systemic process that addresses your own wicked problem limited references to systems theory and history acquaint you with the key principles to work wicked problems on your own the focus of this book on systems thinking is on a critically important question that often goes unanswered where do i start it also provides numerous tips and tricks to keep you on the right track you will find that the systems approaches in this book will not only help you to address wicked problems yourselves but also that it will give you a basic grasp of what is involved in other systems methods few other investments in your intellectual toolbox could claim the same

over the last ten years mobile payment systems have revolutionised banking in some countries in africa in kenya the introduction of m pesa a new financial services model has transformed the banking and financial services industry giving the unbanked majority access to the financial services market it has attracted over 18 million subscribers which is remarkable given that fewer than 4 million people in kenya have bank accounts this book addresses the legal and regulatory issues arising out of the introduction of m pesa in kenya and its drive towards financial inclusion it considers the interaction between regulation and technological innovation with a particular focus on the regulatory tools institutional arrangements and government decisional processes through the examination as a whole of its regulatory capacity this is done with a view to understanding the regulatory capacity of kenya in addressing the vulnerabilities presented by technological innovation in the financial industry for consumers after financial inclusion it also examines the way that mobile payments have been regulated by criticising the piecemeal approach that the central bank of kenya has taken in addressing the legal and regulatory issues presented by mobile payments the book argues there are significant gaps in the regulatory regime of mobile banking in kenya

founded on distinct principles to the fossil fuel based linear economy the sustainable circular bioeconomy requires different social values and institutions and a better understanding of the complexity of the production process a circular bioeconomy provides a framework for using renewable natural capital to manage land biodiversity food and other industries with the aim of improving social well being and environmental safety the contributors to this book analyse the evolution of

the economic system towards the circular economy and bioeconomy and its place in the paradigm of sustainable development they look at institutions and their importance for the bioeconomy and examine the question of the behaviour of market entities enterprises and consumers as well as the meaning of social and environmental responsibility for these entities they also discuss the issues of the product itself the process of creation production processing and the quality of the product including its environmental impact throughout its life cycle the authors also refer to the potential pitfalls and threats related to the implementation of the bioeconomy in both socio economic and environmental contexts individual processes and phenomena are illustrated with case studies and the authors own research the book deliberately fosters an interdisciplinary approach founded on cooperation between economists management specialists agronomists biotechnologists chemists and soil scientists who together underline the complexity and importance of the interdependence of the economy society and the natural environment the open access version of this book available at taylorfrancis.com has been made available under a creative commons attribution non commercial no derivatives cc by nc nd 4 0 license

this thoroughly researched study highlights the international community s failure to regulate contemporary state research development marketing and or deployment of riot control agents and incapacitating chemical agent weapons

this book is the single source for information on the world s greatest network and provides a wealth of information for the average internet consumer as well as for experts in the field of networking and internet technologies it provides the most thorough examination of internet technologies and applications for researchers in a variety of related fields provided by publisher

the current trend toward machine scoring of student work ericsson and haswell argue has created an emerging issue with implications for higher education across the disciplines but with particular importance for those in english departments and in administration the academic community has been silent on the issue some would say excluded from it while the commercial entities who develop essay scoring software have been very active machine scoring of student essays is the first volume to seriously consider the educational mechanisms and consequences of this trend and it offers important discussions from some of the leading scholars in writing assessment reading and evaluating student writing is a time consuming process yet it is a vital part of both student placement and coursework at post secondary institutions in recent years commercial computer evaluation programs have been developed to score student essays in both of these contexts

two year colleges have been especially drawn to these programs but four year institutions are moving to them as well because of the cost savings they promise unfortunately to a large extent the programs have been written and institutions are installing them without attention to their instructional validity or adequacy since the education software companies are moving so rapidly into what they perceive as a promising new market a wider discussion of machine scoring is vital if scholars hope to influence development and or implementation of the programs being created what is needed then is a critical resource to help teachers and administrators evaluate programs they might be considering and to more fully envision the instructional consequences of adopting them and this is the resource that ericsson and haswell are providing here
