with a new introduction by kelly link the locus award winning science fiction novel by legendary author ursula k le guin set in a world where one man s dreams rewrite the future during a time racked by war and environmental catastrophe george orr discovers his dreams alter reality george is compelled to receive treatment from dr william haber an ambitious sleep psychiatrist who quickly grasps the immense power george holds after becoming adept at manipulating george s dreams to reshape the world haber seeks the same power for himself george with some surprising help must resist haber s attempts which threaten to destroy reality itself a

classic of the science fiction genre the lathe of heaven is prescient in its exploration of the moral risks when overwhelming power is coupled with techno utopianism

george orr is a mild and unremarkable man who finds the world a less than pleasant place to live seven billion people jostle for living space and food but george dreams dreams which do in fact change reality and he has no means of controlling this extraordinary power psychiatrist dr william haber offers to help at first sceptical of george s powers he comes to astonished belief when he allows ambition to get the better of ethics george finds himself caught up in a situation of alarming peril

though science fiction has existed as a literary genre for well over a century a working definition of the term has yet to be determined ursula k le guin who emerged as a popular science fiction and fantasy writer in the 1960s has not only witnessed but also experienced first hand the shifts and transformations of this increasingly popular genre delve into her fantastical worlds and investigate several of her famous works in this study ideal for high school and undergraduate students learn about the author s life and decade spanning career as well as her numerous literary achievements this comprehensive analysis of le guin s work will leave readers anxious for her future endeavors

ursula k le guin s the dispossessed is of interest to political theorists partly because of its association with anarchism and partly because it is thought to represent a turning point in the history of utopian dystopian political thought and literature and of science fiction published in 1974 it marked a revival of utopianism after decades of dystopian writing according to this widely accepted view the dispossessed represents a new kind of literary utopia which tom moylan calls a critical utopia the present work challenges this reading of the dispossessed and its place in the histories of utopian dystopian literature and science fiction it explores the difference between traditional literary utopia and novels and suggests that the dispossessed is not a literary utopia but a novel about utopianism in politics le guin s concerns have more to do with those of the novelists of the 19th century writing in the tradition of european realism than they do with the science fiction or utopian literature it also claims that her theory of the novel has an affinity with the ancient greek tragedy this implies that there is a conservatism in le guin s work as a creative writer or as a novelist which fits uneasily with her personal commitment to anarchism

examines the themes of the major fantasy and science fiction of ursula k le guin and discusses her essays and poetry

the definitive guide to understanding taoism no matter your background or faith lao tzu s tao te ching is the second most translated book in the world and the practice of religious taoism is on the rise in china where adherents currently number in the hundreds of millions yet there remains a remarkable lack of reliable information about taoism for curious westerners taoism for dummies

provides comprehensive coverage of taoism s origins in china s chou dynasty its underlying quietist principles its emergence as a major religion various interpretation of its core texts including both eastern and western interpretations key taoist concepts and much more it also provides a fascinating glimpse of taoism in contemporary china the ideal guide for readers interested in this influential religion as well as those taking an introductory course on taoism or chinese religion a valuable source of insight for those with an interest in modern chinese culture and beliefs

a placid and compassionate man discovers that he has extraordinary powers which could destroy the world
