we need to change to solve the water crisis it is impossible for 10 billion people to exist together on this earth as predicted for the year 2100 unless the richer part of the world no longer merely focuses on its own health prosperity and happiness and instead starts working seriously on developing a higher consciousness in this essay cees buisman sharply analyses some of the problems facing mankind such as fresh water shortages whilst overturning several clichés and offering unexpected positive solutions overpopulation is not the problem the effects of our actions on the rest of the world have a much greater impact back to nature is not the solution nor is an overreliance on science and innovation in fact large scale technologies could even increase our problems the growth of humanity depends on the growth of our consciousness we need to change now we need to change to solve the water crisis published by bornmeer noordboe in 2018 as humanity is not a plague how 10 billion people can exist together

jewish designers and architects played a key role in shaping the interwar architecture of central europe and in the respective countries where they settled

following the nazi s rise to power this book explores how jewish architects and patrons influenced and reformed the design of towns and cities through commercial buildings urban landscaping and other material culture it also examines how modern identities evolved in the context of migration commercial and professional networks and in relation to the conflict between nationalist ideologies and international aspirations in central europe and beyond pointing to the production within cultural platforms shared by jews and christians the book s research sheds new light on the importance of integrating jews into central european design and aesthetic history leading historians curators archivists and architects present their critical analyses further to design the past and push forward a transformation in the historical consciousness of central europe by reconsidering the seminal role of central european émigré and exiled architects and designers in shaping today s global design cultures this book further strengthens humanistic progressive and pluralistic cultural trends in europe today

now in its fifth edition doing history offers a unique perspective on teaching and learning history in the elementary and middle grades through case studies of teachers and students in diverse classrooms and from diverse backgrounds it shows children engaging in authentic historical investigations often in the context of an integrated social studies curriculum the premise is that children can engage in valid forms of historical inquiry collecting and analyzing data examining the perspectives of people in the past considering multiple interpretations and creating evidence based historical accounts grounded in contemporary sociocultural theory and research the text features vignettes in each chapter showing communities of teachers and students doing history in environments rich in literature art writing discussion and debate the authors explain how the teaching demonstrated in the vignettes reflects basic principles of contemporary learning theory

doing history emphasizes diversity of perspectives in two ways readers encounter students from a variety of backgrounds and students themselves look at history from multiple perspectives it provides clear guidance in using multiple forms of assessment to evaluate the specifically historical aspects of children's learning

a fortnightly bulletin on financial and political trends

this is the first detailed study of the recent geographical distribution of poverty and wealth in Britain it presents the most comprehensive estimates of the changing levels of poverty and wealth from the late 1960s a wide range of secondary data is used beginning with the first national poverty in the UK survey of Peter Townsend and colleagues and ending with data released during the middle of the current decade the authors extend concepts of social exclusion to establish 5 household groupings the exclusive wealthy able to exclude themselves from the norms of society those who are rich but not exclusively so those who are neither rich nor poor the breadline poor and the core poor who experience a combination of severe income poverty material deprivation and subjective poverty poverty and wealth statistics are mapped in detail to explore geographical patterns over the last four decades and analysed to determine whether poverty and wealth have become more or less polarised
